PROFESSIONAL PROFILE

Full Stack Developer and UI/UX Designer with hands-on experience designing, building and maintaining web applications for the education, automotive, transport and telecommunications sectors. Analytical and solution-oriented, I turn business requirements into reliable, secure and user-centred products, write clean, maintainable code and work autonomously in distributed agile teams. I am now seeking a remote role in a product-focused team.

PROFESSIONAL EXPERIENCE

Full Stack Developer · IT Services Company, Hammamet — July 2025
- Designed and developed a student guidance platform supporting capstone projects and professional internships.
- Implemented resource management, planning and mentorship modules to improve collaboration and learning.
- Built a RESTful API consumed by the single-page front end through asynchronous HTTP requests.

Full Stack Developer · IT Services Company, Hammamet — January 2025 to May 2025
- Developed a dynamic web platform for the online purchase, sale and maintenance of auto parts.
- Implemented real-time inventory control and secure transaction processing, and improved the user experience.
- Applied the MVC pattern, ORM-based data access, input validation, and protection against SQL injection and CSRF.

Full Stack Developer · IT Services Company, Hammamet — June 2024 to July 2024
- Built an airport transport booking platform with a responsive, secure interface for smooth booking management.
- Implemented client-side and server-side form validation to ensure reliable bookings.

Full Stack Developer · Tunisie Telecom — June 2023 to July 2023
- Developed a mailroom management system with role-based access control and full CRUD operations.
- Implemented secure form handling, real-time data processing and input validation.

ADDITIONAL EXPERIENCE

School Life Assistant (SLA) · Ideal Schools, Ideal Holding — October 2025
- Supported students with ADHD and autism by adapting learning activities and managing behaviour.
- Promoted socio-emotional development with teachers and families to ensure an inclusive learning environment.

IT Maintenance Technician · Hi-Tech — July 2022 to August 2022
- Handled the purchase, sale and repair of computer equipment, and installed and maintained video surveillance systems.
- Performed hardware diagnostics, system and network configuration, preventive maintenance and troubleshooting.

EDUCATION & CERTIFICATIONS

Higher Technician Diploma in Web Development · Elite Formation — October 2023 to June 2025
- Design and development of complete, high-performance web and mobile solutions that meet modern standards.

Professional Technician Diploma in Computer Management · Elite Formation — October 2021 to June 2023
- Development of reliable desktop applications and maintenance of high-performance computer networks.

Professional Certificate in Software Development · Paris College, Tunis Campus — July 2025
