DHIA EDDINE SAIED

FULL STACK DEVELOPER · AVAILABLE FOR REMOTE WORK

Nabeul, Tunisia | +216 92 021 578 | Dhiasaied733@gmail.com | Web Portfolio

PROFESSIONAL PROFILE

Full Stack Developer with solid experience designing, developing, and maintaining scalable web applications, applying agile methodologies and industry best practices. Proficient in frontend and backend technologies (Angular, React, Symfony, Node.js, Express.js) and relational and non-relational databases. Committed to writing clean, maintainable code, RESTful API architecture, performance optimization, and delivering user-centered solutions. Accustomed to working independently in distributed teams, using version control tools (Git/GitHub), Scrum/Kanban methodologies, and asynchronous communication, which enables effective integration into remote work environments.

PROFESSIONAL EXPERIENCE

Full Stack Developer — IT Services Company, Hammamet *July 2025*

- Designed and developed a student guidance platform using Angular and Node.js, supporting capstone projects and professional internships.
- Implemented resource management, planning, and mentorship modules to facilitate collaboration and learning.
- Built a RESTful API with Node.js/Express.js, consumed by the Angular frontend through asynchronous HTTP requests (AJAX/Fetch).

Full Stack Developer — IT Services Company, Hammamet *January 2025 – May 2025*

- Developed a dynamic web platform with Symfony (PHP) and MySQL for managing the purchase, sale, and maintenance of auto parts online.
- Implemented real-time inventory control, secure transaction processing, and improved user experience (UX).
- Applied the MVC architecture pattern, Doctrine ORM, and web security best practices (data validation, SQL injection and CSRF prevention).

Full Stack Developer — IT Services Company, Hammamet *June 2024 – July 2024*

- Built an airport transportation booking platform using HTML5, CSS3, Bootstrap, AJAX, PHP, and MySQL.
- Developed a responsive and secure interface for smooth booking management, with client- and server-side form validation.

Full Stack Developer — Tunisie Telecom *June 2023 – July 2023*

- Developed a mailroom management system using HTML, CSS, Bootstrap, AJAX, PHP, and MySQL.
- Implemented role-based access control, CRUD operations, secure form handling, real-time data processing, and input validation.

School Life Assistant (SLA) — Ideal Schools, Ideal Holding *October 2025*

- Supported students with ADHD and autism by adapting learning activities and managing behavior.
- Promoted socio-emotional development in collaboration with teachers and families to ensure an inclusive learning environment.

IT Maintenance Technician — Hi-Tech *July 2022 – August 2022*

- Specialized in the purchase, sale, and repair of computer equipment.
- Installed and maintained video surveillance systems.
- Performed hardware diagnostics, system and network configuration, preventive maintenance, troubleshooting, and implementation of secure, high-performance IT solutions.

EDUCATION

Higher Technician Diploma in Web Development — Elite Formation *October 2023 – June 2025*
Skills: Python, HTML, CSS, JavaScript, Bootstrap, PHP, Angular, Symfony, Flutter, Express.js, LoopBack, Firebase, WordPress, Digital Marketing.

Design and development of complete, high-performance web and mobile solutions compliant with modern standards.

Professional Technician Diploma in Computer Management — Elite Formation*October 2021 – June 2023*
Skills: Python, Cisco Packet Tracer, VB.NET.

Development of reliable desktop applications and maintenance of high-performance computer networks.

CERTIFICATIONS

Professional Certificate in Software Development — Paris College, Tunis Campus *July 2025*

TECHNICAL STACK AND TOOLS

Programming Languages: JavaScript (ES6+), TypeScript, PHP, Python, Dart, SQL, HTML5, CSS3, VB.NET, Pascal

Frameworks and Libraries: Angular, React.js, Symfony, Flutter, Node.js, Express.js, LoopBack, Bootstrap, Tailwind CSS, jQuery

Databases: MySQL, SQL Server, SQLite, Firebase, JSON

Version Control and Environments: Git, GitHub, Visual Studio, VS Code, Command Line (CLI)

CMS and Web Platforms: WordPress (themes and plugins), Wix, Strikingly, Shopify

Design and UI/UX Prototyping: Figma, Adobe Photoshop, Canva

TECHNICAL SKILLS — FULL STACK

Frontend:

- SPA interface development with component and state management
- Consuming services through asynchronous requests
- Responsive design with a mobile-first approach
- Componentization and reuse of interfaces

Backend:

- RESTful API design and MVC architecture
- Application of OOP and SOLID principles
- Authentication, authorization, and access control management
- Data validation, exception handling, and business logic

Databases:

- Design and administration of relational and NoSQL structures
- Query and performance optimization
- Normalization and efficient data modeling

Best Practices & Quality:

- Clean, maintainable, and documented code
- Web vulnerability prevention (SQL Injection, CSRF)
- Debugging, functional testing, and performance tuning
- Service integration and microservices-oriented architecture

LANGUAGES

Arabic — Native

French — Intermediate

English — Intermediate

Spanish — Intermediate

KEY COMPETENCIES

- Advanced WordPress development and plugin administration
- UI/UX design with Figma
- Creativity, reliability, and attention to detail
- Proficiency with modern development tools and environments
- Effective collaboration on remote digital projects
- Analytical and solution-oriented thinking
- Self-management, proactivity, and effective communication in remote work environments
